Education

BSc in Business IT, University of Greenwich (Feb 2020)

BA in English, West Yangon University (2018-Discontinued)

Past Work Experience

IT Support Technician

ABC Content Solution - Maher Mobile App

June 2024 – Feb 2025

Managed laptop/desktop/printer maintenance, including software installation and hardware replacement.

Supported departments with their software and hardware needs, including broadcasting, HR, and content production.

Experience with data storage tools like Synology and Veritas, and network administration (Cisco routers, firewalls, switches).

Assisted customer care departments using help desk software like HESK and KLinks

Senior Software Support Specialist

App.com.mm - Hap Eye Co., Ltd

Sep 2024 – Jun 2025

Acted as the key liaison between clients, product, and development teams for end-to-end software delivery. Managed requirement gathering, user flow definition, and SRS documentation; planned and executed agile sprints using Scrum; coordinated UX/UI wireframes and user journeys in Figma; facilitated UAT and defect triaging; and ensured seamless handoff from design to development. Oversaw comprehensive software QA, staging and deployment cycles, provided advanced support for Windows environment and peripheral setups (including printers and drivers), and led troubleshooting for technical issues. Drove continuous process improvements and maintained clear stakeholder communications throughout the project lifecycle.

Tools: Jira, Figma, Windows Server, Git, Slack, Google Workspace, Agile/Scrum
